The New Garage

Meeting of Football Club.

A meeting was held last week of the local Football Club, in the Royal Parlors, with Henry Miller Jr. in the chair. Mr C W Rossell was appointed Secretary pro tem; after which the minutes of the previous meeting were read.

The election of a Captain for the season of 1922 resulted in Mr C W Rossell being elected; and the same gentleman will act as Secretary for the season.

The committee consists of T A Bonser, Ed Barth and Henry Miller Jr. Mr Mike Zucht is manager.

Some discussion took place on getting new goal posts, nets and other necessary equipment.

The season is now open for practice, Monday, Wednesday and Friday nights being the ones now chosen.

About a score of enthusiastic players were present at the meeting, and the prediction was made that this will be a record season for this sport.

Ponoka Manager 'Presented'

Ponoka Herald: Mr George E. Clarke, manager of the Bank of Commerce here, was, with Mrs Clarke, guests at a social evening given in their honor last week, when presentations were made to them by the citizens and also by the members of the staff. Suitable addresses were delivered by prominent residents of the town, and Mr R C Ames of Delia, who is succeeding Mr Clarke.

LOST.

Coke lost, Bay Filly, with hair rubbed off tail; year old coming June; strayed from Dr Frith's pasture north of town. Notify Wm Gilbert, Stony Plain.

Report of Parks Board.

At a meeting of the Parks Board held May 1st, it was resolved to apply to the Town Council for the usual grant of \$75, and in addition for a portion of the \$210 paid last year from the Parks Board into the town account. It is proposed to open a separate account, called the Parks Board Account, and this fund whilst belonging to the town will be operated separately by the Parks Board, a proper accounting being made and audited along with the town's books in the usual way. The Parks Board suggest if this is agreed to that they will undertake to keep the Fair Grounds in proper shape out of their own fund. They will also take charge of the 80 acres north belonging to the Town, with a view to gradually bringing the land into something productive.

The past work of the Parks Board speaks for itself, and in asking this are merely asking for enlarged opportunity of serving the community.

During the six years the Board has had the annual \$75 grant it has spent \$415.59 and handed back \$284.79; or, in other words, of the \$450 granted, it has only used \$130.80.

Mrs. Nellie McClung,

M. L. A., will deliver her Popular Lecture,

"Up to London,"

Under the auspices of Stony Plain Methodist Church, on

Monday, May 15, 8 p.m.

Musical Program.

Adults 50c. Children 25c.

LOCAL NEWS.

Mr. Glen Cross left on a visit to his uncle at Jasper.

Mr. and Mrs. C. E. Clarke were visitors to Edmonton on Saturday last.

Mr. Edward Young the well known herdsman, who had been employed at the local Demonstration Farm for some 8 months, resigned his position on Saturday last.

Mr. Don Horner, well known here was married in Edmonton on Saturday, April 22.

Mr. and Mrs. McCulla were "at home" to their friends on Saturday evening, when cards and music helped pass a pleasant evening.

S. H. Kettle the well-known journalist, arrived in town on Friday.

Mrs. Gordon, who had been visiting friends in Edmonton, returned on Tuesday evening.

Fried-egg Charlie, the Chinese chef who had been on a visit to China, returned to town on Friday.

Mr. Ph. Tropp shipped another car of potatoes last week.

Both banks were closed on Monday last, it being a legal holiday.

A special case out Saturday on the old C. N. Ry.

On Sunday next, May 14, a service for young people will be held in the Methodist Church at 11 a.m.

The Rifle Club will hold a meeting on Saturday evening next, the 13th, at the Royal.

Will the party who picked up an auto-jack from in front of the Royal Hotel on Sunday, April 30, kindly return same to the Hotel?

Stony Plain U. F. held a very interesting meeting on Saturday evening, when a number of important matters came up for discussion.

The School cases, which have had numerous postponements, were finally disposed of on Saturday last, at the local Court, the thirteen interested parties having a nominal fine imposed on them. An appeal is being taken.

The local Government Farm is exciting a lot of interest in departmental circles at the present time, two official visits being paid it last week, Friday's party including H. A. Craig, Deputy Minister of Agriculture, and Mr Douglas, Director of Farms.

The latest good news are that the "Three Joyous Days" which we all enjoyed so heartily last August during the stay in Stony of the Chautauque Troupe, is certain to be repeated this year, approximately on a date two weeks earlier than last season.

Parties cutting or removing trees or shrubs from the 80-acre plot on Sec. 36 belonging to the Town will be prosecuted. These grounds are now under the supervision of the Parks Board.

A letter from the Minister of Agriculture says the car of potatoes sent from Stony for the sufferers in the South has been forwarded to Enchant. The check for \$66.00 which accompanied the potatoes has arrived in Edmonton.

Diamond Ware is a three-coated enameled steel, sky blue and white outside with a snowy white lining. Pearl Ware is a two-coated enameled steel, pearl grey and white inside and out.

A Gratifying Change

There has in times past been so much bitterness in Canada's party politics, and such a pronounced tendency for the leaders of one political party to refuse to see anything good in the policies and actions of the opposing party, that it is not only gratifying, but decidedly encouraging to note the change for the better which has taken place in recent years, and which is becoming more pronounced.

A pleasing manifestation of this was given a few days ago when, addressing one of our Western Canadian Clubs, Hon. H. H. Stevens, who was a minister in the Meighen Government, frankly stated that he believed the King Government was honestly desirous of helping the farmers of Canada in their present difficulties and was earnestly seeking a way whereby practical assistance could be rendered the agricultural industry.

Newspaper despatches reporting the proceedings of the Parliamentary Committee investigating the problem of wheat marketing indicate that the members, in giving consideration to this large and vitally important subject, are not trying to make party capital for themselves, and to place their political opponents in a false light, but are sincerely striving to evolve a policy and devise ways and means which will be practical and provide for the removal of present disabilities imposed on agriculture, and give to the producer of grain a reasonable guarantee that he will receive the largest possible financial return from his labor.

But from the purely Western and the large national standpoint the attitude now being displayed towards agriculture is most encouraging, and holds promise that the same patriotic and business-like views will prevail when Parliament is called upon to deal with other great national questions in the wise solution of which is bound up the welfare and prosperity of the people of this Dominion.

And why should this bigger, better, national viewpoint not prevail in our national Parliament? Considered in this way, the Canadian people, while interested as all people living under a democratic form of government must be interested in the organization and policies of political parties, are not rabidly partisan and maniacal in the fortunes of one political party than comes to the good government of the country and the wise administration of Canada's affairs.

There was a time when it seemed to be the accepted view that when one party announced its policy on a given question, whether that party be in office or in opposition, there was only one thing for the other party to do, and that was to oppose the policy announced regardless of its merits. Fortunately for Canada that time now seems to have largely passed, and today political leaders are becoming more and more willing to acknowledge the good features of their opponent's policy and to show a readiness to co-operate in still further strengthening such policy and carrying it into successful operation.

In these difficult and trying times through which the whole world is passing it is not partisan, supercilious government that Canada requires, but patriotic, constructive co-operation by all members at Ottawa, regardless of the party with which they are aligned with the one common object of giving the Dominion wise, sane, business-like administration. Let there be suggestion, and criticism and even opposition when it is called for in the public interest, but the main guiding motive of Liberals, Conservatives, Progressives and Labor needs to be the advancement of Canada's highest welfare and the sound development of national policies with a view to the happiness of the Canadian people and the enhancement of the prosperity of the country at large.

"There's a Reason" for Grape-Nuts

Young Scientists Needed

Pulp Industry Requires Trained Men to Solve Problems

Here are a few of the problems faced by the men in the paper and pulp industry in Canada.

They have heavy losses every year as a result of the decay of wood in storage. Also some mills now have to haul their logs long distances.

Also, and this fact is not generally known, the pulping processes have been only slightly improved in the last fifty years.

The value of the industry will be increased at least 25 per cent. when all these problems are solved, but a great deal more intensive scientific investigation is necessary in connection with each one of them.

An effort to supply the deficiency in trained men is being made by the Council for Scientific and Industrial Research of Ottawa. Arrangements have been made to award 7 Fellowships, 9 Studentships and 29 Bursaries among men who are taking scientific courses, and it is hoped that among them may be found suitable scientists who will devote themselves to the solution of the problems of the pulp and paper industry among others.

HIS NERVES NOW

STRONG AS EVER

How An Ontario Teacher Regained Good Health

"I am a school teacher by profession," says Mr. James H. Thomson, R.R. No. 1, Centuria, Ont., "yet when I started school teaching I was in very poor health. I was suffering from nervous breakdown, brought on by overwork and no relaxation. I was unable to think, to act, or even to eat properly. Queer little prickly sensations were continually running up and down my back, my arms and my legs; like so many needles, seeming at times to paralyze me, and often my heart was thumping like a trip-hammer. I determined to consult my family doctor, and he immediately put me under orders. I had to give up my school and return home in order to recuperate my lost health. Milk was his chief remedy and I drank quarts of it; yet, though it helped me, it did not build me up to my normal condition. Something was missing; something my system was calling for, better food. One day, when I picked up a newspaper, I came across an advertisement of Dr. Williams' Pink Pills suggesting just what I needed. I bought a new case—new, rich red blood. I immediately sent for a box, and when the doctor visited me, he told him I had decided to try Dr. Williams' Pink Pills and he seemed satisfied. By this time my box was nearly done, and I determined to get another, by the time I had finished this I was gradually coming back to normal. My strength was returning, I could sit and walk without effort. For the next few weeks I continued to take the pills, and they were working wonders with me. My head was becoming clearer, my memory better, and my nerves were becoming steadier. I began to go out frequently, enjoying myself. My appetite improved and was even better than before I had my breakdown. I was myself again. I got back my school, and to this day I have had no return of the trouble, and now when anyone comes to me with nervous trouble, I instantly suggest Dr. Williams' Pink Pills as a remedy, as I believe that what they did in my case they will do for others."

Dr. Williams' Pink Pills can be obtained from any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Will Keep Canada's Money at Home

Treatment of Canadian Ore Will Establish New Industry

Realizing that Canada has been paying annually millions of dollars for steel products purchased in the United States, and that steel plants in the interior of Canada have been dependent upon the United States for their supplies of iron ores, the Council for Scientific and Industrial Research at Ottawa has been investigating the native iron ore resources, and has secured reports from a committee to the effect that it is time to undertake the special treatment which the Canadian ores required to fit them for commercial reduction to pig iron. It is hoped thereby to establish a new and important home industry.

A composite flag, representing the national colors of the United States, Great Britain, France, Belgium, Italy and Japan has been placed upon the grave of the British unknown warrior in Westminster Abbey.

ROYAL YEAST CAKES

MAKE PERFECT BREAD

AN IMPORTANT PRODUCT OF CANADA

Bread is the finest food on earth—the one food that everybody eats—that everybody likes, and that agrees with everybody.

Bread made in the home with Royal Yeast Cakes tastes better, keeps fresh longer, and is more nourishing than any other.

Moisture Conditions Best in Years

Moisture conditions over the prairie provinces are perhaps the best for ten years, according to the preliminary report of the Grain Trade News. The report further states that the supply of labor, as regards number, can be said to be quite satisfactory, with wages running from as low as \$26 up to \$45 a month for good men.

A Real Asthma Relief. Dr. J. D. Kellogg's Asthma Remedy has never been advertised by extravagant statements. Its claims are conservative indeed, when judged by the benefits which it performs. Expect real relief and permanent benefits when you buy this remedy and you will not have cause for disappointment. It gives permanent relief in many cases where other so-called remedies have utterly failed.

Many temples in China are provided with a bell at the entrance and when a worshiper enters he gives the rope a pull to ring the bell in order that the gods may be notified of his coming and be at hand to attend to his prayers.

Business Improving

Building permits for the first three months of this year for Vancouver, B.C., represent a total value of \$390,000 as compared with \$750,000 for the first quarter of last year.

Says That Canada Will Lead United States As A Wheat Producer

Canada soon will lead the United States in the production of wheat, declared Senator Calder, of New York, in addressing the Senate in opposition to the St. Lawrence waterway project. He expressed the opinion that the proposed canal was extensively for the purpose of carrying Canadian wheat, and pointed out that Herbert Hoover had stated that the United States would become a wheat-importing nation within ten years. In presenting an interesting picture of the possibilities of Canada as a wheat growing country, the senator said the Dominion would develop several times the wheat acreage of the United States.

"The peak wheat acreage in the United States," said Senator Calder, "was 75,694,000 acres, reached in 1919, an increase of 35 per cent. over the acreage in 1910. Canada's peak was 19,125,968 acres in the same year. An increase of 115 per cent. over the 1910 figure." Canada's wheat production increased from 132,000,000 bushels in 1910 to 283,000,000 bushels in 1920, an increase of 100 per cent. The production of the United States increased, from 635,000,000 in 1910 to 833,000,000 in 1920, an increase of approximately 23 per cent. While production in the United States increased 33 per cent. during the 1910 period, the value of the wheat crop increased 100 per cent., the 1910 value being \$560,000,000, the 1920 figure being \$1,197,000,000. During the same period the value of Canada's crop increased 400 per cent. from \$28,530,000 in 1910 and \$127,356,000 in 1920.

"The average price per acre of the land devoted to wheat in 1920 was \$92. The average price of Canadian land now devoted to the production of wheat is \$43."

Senator Calder then read statistics showing details of the relative increase in Canadian and United States wheat growing lands.

"But this is only part of the picture," the New York Senator continued. "Canada has but entered the lists. Its wheat growers have not even begun to fight. There are in Manitoba, Saskatchewan and Alberta 120,554,000 acres of private ownership. The total number of acres surveyed up to January, 1920, was 199,757,000. Of this total approximately 25,000,000 acres are now available for homesteaded entry. In addition to the surveyed areas there are large tracts in these provinces which have been only partly surveyed. These tracts contain more than 250,000,000 acres.

"A quarter section of land may be obtained as a homestead in these provinces on the payment of an entry fee of \$10. In Northern Ontario a quarter section can be obtained for 50 cents an acre, one-quarter in cash.

"Now, here is the question of equal irrigation facilities, what will be the result of a contest in which 250,000,000 acres of land, valued at from 50 cents to \$43 an acre, is pitted against 75,000,000 acres of land with an average value of 92 cents an acre?"

"Bear in mind that the proposed canal is ostensibly being built primarily to carry wheat. Divorce the project from its aggressive agrarian support and it collapses. I concede that perhaps this canal, if built, may carry wheat, but whose wheat? I ask you. The answer is uneasable—Canada's."

"I will not venture an attempt to prophesy regarding the future of the United States as a wheat exporting nation. Herbert Hoover has given it as his opinion that within 10 years we will have become a wheat importing nation. I neither reject nor accept that conclusion. But I know of no one better qualified to speak on this subject than our able secretary of commerce."

Sciatica's Pains Relieved Quickly By Nerviline

In bringing quick relief to the Sciatic sufferer, the best remedy is frequent application of Nerviline. This remedy has proved its success. Nerviline penetrates deeply, every drop rubs right in. The irritated nerves are soothed and the pain goes away. Wherever there is Rheumatism, Neuralgia, Lumbago, Muscular Pain, the quickest relief always comes from the use of Nerviline, 35c at all dealers.

Poultry Performance Record

Improvement Shown in Egg-Laying and in Number of Entries

That the record of performance in egg-laying established by the Poultry Division of the Dominion Livestock Branch, is appreciated is indicated by the increase both of breeders and entries for 1920-21 compared with the number entered in 1919-20. In the latter year the entries were 67 breeders and 4,496 birds and in the former 81 breeders and 7,511 birds. Quebec shows, according to the second report just issued, the largest increase in the number of breeders, and Ontario and British Columbia show the greatest increase in birds entered. The report indicates that the breeds most favored by British Columbia are Leghorns and Wyandottes, and by Ontario, Leghorns, Plymouth Rocks and Wyandottes. Quebec's fancy is for Plymouth Rocks and Rhode Island Reds. New Brunswick, Prince Edward Island and Saskatchewan also favor Plymouth Rocks. British Columbia stands well ahead in the number of birds, continued for the record. Ontario coming second, Quebec third, and Saskatchewan fourth. Considerable improvement in this respect is shown in the second year compared with the first.

Certificates are issued for all qualified birds laying no fewer than 150 eggs in 62 consecutive weeks, with advanced certificates for birds that lay over 225 eggs in the same period, providing the quality of the eggs is not lower than the grade specified in the Canadian standard for eggs and that they average at least two ounces in weight. British Columbia again shows to advantage in the advanced qualifications, with Ontario and Quebec following, with New Brunswick fourth, and Saskatchewan and Prince Edward Island tying. In British Columbia, 94 Single Comb White Leghorns, granted advanced certificates, averaged 232.22 eggs per bird in the 52 weeks; 42 Wyandottes, 242.47 per bird; and 25 Barred Plymouth Rocks, 241.17 per bird. In Ontario 41 advanced Leghorns laid an average of 245 eggs per bird in the 52 weeks; 27 Plymouth Rocks 234.16 per bird, and 18 Wyandottes 233.13 per bird. In Quebec 10 advanced Plymouth Rocks averaged 235.2 eggs per bird, and 6 Rhode Island Reds 235.3 per bird.

Ladies Remove Their Corns In A Very Simple Way

No pain, no trouble, costs only a quarter. It is a very simple thing to mail on a small application of good old Putnam's night and morning. To remove corns, to get entirely free from them, use Putnam's—Corn & Wart Extractor. It is guaranteed, 25c at all dealers. Refuse a substitute.

New York Found in Switzerland

Little Alpine Hamlet Near Lucerne Has Fifty Inhabitants

A peasant handed in a telegram of a few words at a branch telephone office for his wife in New York and placed a franc on the counter for payment. The clerk asked whether the wire was really meant to be sent to New York, and proceeded to make the calculation. When the comparatively large sum required was announced to the peasant he protested loudly and insisted that New York was in Switzerland.

And so it was found to be, but it took long and patient searching through a large ancient volume to discover that there is a New York in Switzerland, a little Alpine hamlet of 50 inhabitants not far from Lucerne.

Etymological Bigotry

"How d'yer like yer new boss, Mamee?" asked one stenographer of another on the elevator.

"Oh, he ain't so bad, only he's kind of bigoted."

"What yer mean, bigoted?"

"He seems ter think that words can only be spelled in his way."—Boston Transcript.

The largest insect known, but now extinct, was a dragonfly, which had a wingspread measuring two feet.

TO REMOVE BAD COLD MEDICINE NOT NECESSARY

The Balsamic Vapor of "Catarrhose" When Inhaled Quickly Disperses Colds

Every breath you draw through Catarrhose Inhaler fills the whole breathing apparatus with pure balsamic vapors that stop colds at their very beginning. You experience a pleasant sensation of relief at once. Soreness, congestion and irritation leave the nose and throat, the head is cleared and every trace of cold and Catarrh disappears. Catarrhose is so sure, so pleasant, such a safe remedy for winter ills that you can't afford to do without it. Get the dollar out of it. It lasts two months; small size, 50c; trial size, 25c, at all dealers or the Catarrhose Co., Montreal.

Mystery of the Lightning Bug's Light

Wireless Operator Says It Is Caused By Radio

The mystery of what makes the lightning bug light has been solved and the answer is radio. Hamilton Bailey, wireless operator on the Blackhawk, flagship of the North Sea mine sweeping fleet during the war, declared recently.

"Lightning Bugs," Bailey said, "are equipped with miniature audion bulbs and possess a low radio frequency, and a short wave length. Radio waves generated by present lightning bugs equipped with miniature apparatus cause the lightning-like flashes, he asserted. Each bug is equipped with its own antennae, the long feelers or whiskers, serving as the aerial, according to Bailey.

Of the Scottish cities, Glasgow's population is now 1,034,069, an increase of 25,582 on 1911, while Edinburgh's stands at 450,267, a decrease of 3,779.

Pimzie Finds Something Interesting.

So you know, Pimzie is the most adventurous of the Fairy's four Brownies. He grows restive very now and then and when this feeling comes on, his one idea is to go up and down the mountain, make new friends and have strange experiences and lots of fun. As usual, he had again wandered from his playful home, the mountain house, and he was having a perfectly beautiful time amongst some rocks near the seashore. I say near the seashore, because the spot where our little Brownie friend was playing had been entirely covered had it been high; but it was now the deepest, lowest kind of a low tide and the rocks were fully exposed with pools between them; here and there were bare stretches of sand, making a marvellous place to play. So it could hardly seem surprising that Pimzie was not only having a glorious time but that he was gloriously wet. . . . Any small boy would have been the same, and when all is said and done Brownies are very much like small boys, especially the mischievous kind, such as Pimzie! He looked ruefully at his suit, for it was so soaked and full of water that it felt heavy. . . . even his hat was wet! He was quite sure that there were his nose, but that Stella's Darling Needle maker had made him, and the hat was the one he was so fond of; the one with the red tassel.

As he was so wet he decided to strip and stretch his clothes on a high rock to dry. No sooner thought of than done! In less than a minute Pimzie was quite rid of his clothes and swimming around one of the shallow pools between the rocks. He himself is so little that he didn't frighten or even disturb the countless tiny sea creatures sharing the pool, for they looked upon him almost as one of themselves. I suppose there are so many different kinds of creatures of the sea and sand that a new one more or less surprises the others. Of all that the Brownie saw, none amused him more than the Hermit Crabs. There were ever so many of them all around him. All that a Hermit Crab needs for a fight is to see another Hermit Crab! The mere sight of one another seems to enrage them so that they immediately engage in furious battles, and Pimzie watched one fight after another.

"Gracious!" he at last exclaimed to himself. "They certainly are a rowdy lot! I wonder what all the fighting is about." And after a little while he suddenly realized what the trouble was. . . . to you want to have been so much amused by these tiny Crabs and what the Brownie found out by watching them?

It seems that without meaning to, he had moved an empty shell with his foot, which was the cause of all the excitement. The shell had been empty because the little Hermit whose home it had been was in the act of trying another shell to see if he would like that one better than the one he had been living in. He had outgrown his old shell and it had become uncomfortably tight, so this was his way of getting a new one; then when Pimzie pushed up the sand the Hermit, in a great fright, tried to hustle back to the safety of his old shell. . . . but he couldn't find it. Horrors and horrors! A Hermit Crab without a shell is indeed in trouble! He couldn't well imagine being in any worse trouble, and feeling sure that he was in the midst of some awful Crab nightmare, he dashed wildly back and forth, this way and that, in the vain hope of retreating to his refuge before something terrible would happen to him.

Pimzie being a tease, took the shell and, holding it tightly hidden in his hand, he hid and amused for a long while, during which time the poor little crab had opportunity of seeing just how a Hermit Crab looks when out of the borrowed shell, for, as you may know, these funny little crustaceans have no shell of their own. . . . These ridiculous bodies, which are only covered with skin, they have to depend on their wits as well as their fighting powers to go forth and find some suitable shell.

Next week's story will be more about what Pimzie saw. Copyright, 1923

Immigration From Europe Shows Big Increase During The Past Year

Canada is rapidly becoming a melting pot for continental European races. As compared with immigration from the British Isles and from the United States for the two fiscal years ending March 31, 1921, the accession of peoples from the continent of Europe showed a remarkable increase. Immigration from that region for year ending March 31, 1921, was 224 per cent. more than that in the year ending March 31, 1920. The increase for the British Isles in the same two years was only 25 per cent. Following are the figures. Year ending March 31, 1920—from the British Isles, 59,603; from the United States, 49,656; from other countries, 8,007; total, 117,266. Year ending March 31, 1921—from the British Isles, 74,262; from the United States, 48,059; from other countries, 24,156; total, 146,477.

In a comparative statement for the years 1919-20 and 1920-21 giving the following figures. Year ending March 31, 1920—from the United States, 49,656; from the United States, 48,059; from other countries, 24,156; total, 146,477.

In a comparative statement for the years 1919-20 and 1920-21 giving the following figures. Year ending March 31, 1920—from the United States, 49,656; from the United States, 48,059; from other countries, 24,156; total, 146,477.

In a comparative statement for the years 1919-20 and 1920-21 giving the following figures. Year ending March 31, 1920—from the United States, 49,656; from the United States, 48,059; from other countries, 24,156; total, 146,477.

Males, 24,761; females, 11,502; children, 8,996; total, 45,069.

Parsons and associates head the list of immigrants for the year ending March 31, 1921. Following are the figures, showing the influx according to occupation, and including male, female and children: Farmers or farm laborers—Via ocean ports, 22,716; from the United States, 17,747. General laborers—Via ocean ports, 9,862; from the United States, 7,419. Mechanical—Via ocean ports, 8,611. Trades—Via ocean ports, 36,070; from the United States, 5,611.

Immigrants by destination, classified as to provinces, for the year ending March 31, 1921, was as follows: Nova Scotia—Via ocean ports, 3,217; from the United States, 961; total, 4,178. New Brunswick—Via ocean ports, 866; from the United States, 1,017; total, 1,883. Prince Edward Island—Via ocean ports, 49; from the United States, 253; total, 302. Quebec—Via ocean ports, 14,019; from the United States, 7,091; total, 21,110. Ontario—Via ocean ports, 49,102; from the United States, 13,469; total, 62,571. Manitoba—Via ocean ports, 8,289; from the United States, 4,560; total, 12,849. Saskatchewan—Via ocean ports, 1,525; from the United States, 6,057; total, 12,382. Alberta—Via ocean ports, 7,097; from the United States, 10,684; total, 17,781. British Columbia—Via ocean ports, 10,432; from the United States, 4,078; total, 14,517. Yukon Territory—Via ocean ports, 4; from the United States, 109; total, 113.

Chinese immigration for the year ending March 31, 1921, totalled 2,435, and the average for the 10-year period terminating March 31, 1920, was 3,187. Last year's influx showed a decrease of 23 per cent. Japanese immigration dropped off 26 per cent. in the last fiscal year, and the average for the same 10-year period as above was 719. Hindu immigration has practically ceased, only 10 having arrived in the last fiscal year. During the last 10 years only 107 immigrated, a yearly average of 10. Of the 2,435 Chinese who came to Canada in the last fiscal year, 1,550 were admitted as exempt from the head tax, and \$85 upon payment of \$500 each. The first head tax of \$50 was imposed upon Chinese in 1905. This amount was increased to \$100 on January 1, 1901, and to \$500 on January 1, 1904.

Following is a comparison of the last two fiscal years on Chinese immigration: 1919-20—Exempts, 181; paying tax, 363; registered for leave, 5,519; total, 5,863. 1920-21—Exempts, 1,550; paying tax, 883; registered for leave, 6,807; total revenue, \$474,232.

Reports Gain in Population

Newfoundland Shows Substantial Increase While Labrador Is Going Back

Newfoundland and its dependency, Labrador, has a population of 262,928, according to the figures for the recent census just issued. In 1911, the population was 242,619. The increase was on the island, the number of people living in Labrador having shown a considerable decrease. Denominational, the population is divided as follows: Roman Catholic, 88,476; Church of England, 84,498; Methodist, 7,334; Salvation Army, 13,651. All other denominations show increase of 12,946; the Anglicans, 5,882; and the Roman Catholics, 5,301.

WHEN WOMEN SUFFER

Look for weakness or ill-health. See if there is not a side ache, headache, restlessness and the "blues". The symptoms indicate that you need the gentle assistance of Dr. Hamilton's Pills. These soothing medicines are a great friend to womankind. They are a wonderful relief to constipation, they clear up sick headache, remove wastes and poisons from the system. Girls and women can use Dr. Hamilton's Pills in Labrador having shown 12,946; the Anglicans, 5,882; and the Roman Catholics, 5,301.

LORD LISTER & Zam-Buk

Lord Lister's discovery of antiseptic surgery has saved the world a lot of lives, but it has been left to Zam-Buk to bring into millions of homes the full benefits of antiseptic healing.

Zam-Buk is the greatest antiseptic healer the world has ever known. Being of a natural vegetable origin Zam-Buk has distinct and positive advantages over old-style mineral ointments. Zam-Buk is a compact and highly-refined herbal balm with an antiseptic power many times greater than that of any ordinary salve or ointment. Zam-Buk kills and excludes disease germs, and instantly allays pain and irritation. It first cleanses a sore place and then grows over it with healthy skin.

As a first-aid dressing for injuries, and for rooting-out such troubles as eczema, ulcers, ringworm, abscesses, poisoned wounds and piles, Zam-Buk is used the world over. It has the high endorsement of Dr. Andrew Wilson and other well-known doctors, surgeons and nurses. 50c. box, 2 for \$1.25, all dealers.

II. Winnipeg.
June 4th, 19—

When Mr. Arnold came home for luncheon to-day he suggested that we should all go out on the river for the afternoon. We went. And the result is that my face and arms are burned to a blister. I am sure that Canadian sunburn is worse than the English variety. Fortunately for the continuation of my diary, I am not fit to be seen, so under a half-inch layer of cold cream, I have gone into retreat for the evening.

I am greatly tempted to describe my adventures in the Pullman sleeping-car, but, according to Mary, that is forbidden ground. Our train pulled into Winnipeg on the morning of Tuesday, May 31st. The negro porter was at hand to brush my coat and to gather up the various belongings without which no Englishwoman can travel. I do not like to think that the courtesy and consideration shown to a lone woman on the Canadian Pacific Railway is entirely due to a fondness for tips;

I'm So Tired

Fatigue is the result of poisons in the blood. So when the kidneys fail to purify the blood one of the first indications is unusual and persistent tired feelings and pains in the back.

Neglected kidney troubles lead to years of suffering from rheumatism or develop into such fatal ailments as Bright's disease.

The kidney action is promptly corrected by use of Dr. Chase's Kidney-Liver Pills — the best known regulator of kidneys, liver and bowels.

Mrs. John Ireland, R.R. No. 2, King, Ont., writes:

"I was a great sufferer from severe headaches and bilious spells. I tried a number of remedies without obtaining any benefit until I was advised to use Dr. Chase's Kidney-Liver Pills. These completely relieved me and made me feel like a new person. I am very grateful to Dr. Chase's medicines for what they have done for me, and can say up my letter for the benefit of others."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers or Edmondson, Bates & Co., Ltd., Toronto.

W. N. U. 1419

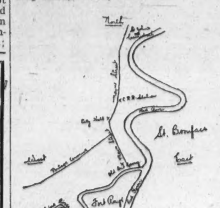

surely the virtue of simple kindness is at least partly responsible.

When Ralph was a small boy, someone who sympathized with him in his taste for "buggy" things gave him an illustrated book of "Travels in the Wilds of North America." One picture in it, I hated my dreams for years; it showed a man running the gauntlet between two rows of savage-looking Indians. I was never, after all these years, the interested spectator of a similar scene, minus the Indians.

As I stepped off the train a uniformed seraph took my bag with "This way, lady; the gent's just outside," and I followed him across the platform. I wish I had a photograph of the sight that met my eyes as I entered the door of the station. From one side of the rotunda to the other stretched two rows of people, and between these two rows the incoming passengers ran the gauntlet in the most approved fashion, until they were recognized by onlookers. The whole distance is probably two hundred feet or less, but it seemed to me to be at least a mile, and I was more than glad to find the Arnolds waiting for me at the door. I had felt sure that Mr. Arnold would meet me, but I imagine my joy when I saw not only him but Mrs. Arnold and Mary. I may also admit that I was glad to turn my luggage clutches over to Mr. Arnold. Men are useful when all is said and done.

In a few minutes we were in a taxi-cab and whirling along Main Street on our way to the Arnold home. I had always understood that American cities were laid out strictly according to rule, but it appears that Winnipeg's main thoroughfare was surveyed by a cat! The legend is that in the early days, before Winnipeg was, a calf strayed from the settlement in Kildonan and made its way to Fort Garry—Winnipeg is built on the site of the old fort; the owner followed it on horseback; next day another man in his Red River cart took the same trail. And this was the origin of Winnipeg, was duly opened; without the assistance of such modern conveniences as engineers, compasses, tape-lines, and transits. It is probably unnecessary to add that calves do not, as a rule, wander in a straight line, and as it has not been considered essential to the welfare of the city to make a change, Main Street remains as crooked as the day the innocent calf broke the trail. It goes against the grain to admit it, but in honesty I have to record that some prosaic people assert that the old road followed the bends in the notoriously crooked Red River.

The Arnolds have a pretty home in the residential district known as Fort Rouge—this is south of the Assiniboine River. To make my diary comprehensible to posterity, I shall insert here a map of Winnipeg and its surroundings. I copied the outline of the rivers and of Main Street and Portage Avenue from a wonderfully well-informed little production known as "Wagoner's Guide." I hope no one will conclude that Winnipeg has but two streets—there are millions of them; I have been trying to find some Winnipeg people—but an elaborate map is beyond my skill.

Mary has just been in to admire my handiwork. She asked if it were a l'art Nouveau design for wallpaper or an impressionist rendering of the Laocoon!

I had to return to Fort Rouge. With the mind athirst for information that is characteristic of the travelling Britisher, I asked where the name originated.

"This is supposed to be the site of one of La Verandry's forts," replied Mary. I hope that my compunct face hid from her the knowledge that for all I knew La Verandry might be the name of a brand of face-powder. I took the first opportunity to ask Mr. Arnold for enlightenment, but I think it would be a step in the right direction if we were to make ourselves familiar with the outlines of Canadian history before we leave England; we should do so if we were visiting any other country, you know. I do not mean that we should study Canadian history before visiting any other country. Mr. Arnold has given me several books on the subject, and I intend to "make good" if I have to lose sleep to do it. Already my British prejudice has received one severe blow with the knowledge that France was largely responsible for the early development of "British" North America.

Ask for Minard's and take no other

Why Castoria?

YEARS ago Castor Oil, Paregoric, Drops and Soothing Syrups were the remedies in common use for Infants and Children; Castor Oil so nauseating as to be almost impossible and the others all containing Opium in one form or another, but so disguised as to make them pleasant to the taste, yet really to stupify the child and give the appearance of relief from pain.

It required years of research to find a purely vegetable combination that would take the place of these disagreeable, unpleasant and vicious remedies that from habit had become almost universal. This was the inception of, and the reason for, the introduction of Fletcher's Castoria, and for over 30 years it has proven its worth, received the praise of Physicians everywhere and become a household word among mothers.

A remedy **ESPECIALLY** prepared for Infants and Children and no mother would think of giving to her baby a remedy that she would use for herself without consulting a physician.

Children Cry For Fletcher's CASTORIA

Have You Tried It?

Everybody has read the above headline; how many believe it? Have you a little-one in the home, and has that dear little mite when its stomach was not just right felt the comforts that come with the use of Fletcher's Castoria? You have heard the cry of pain. Have you heard them cry for Fletcher's Castoria? Try it.

Just help baby out of its trouble tomorrow with a taste of Castoria. Watch the difference in the tone of the cry, the look in the eye, the wiggle in the tiny fingers. The transformation is complete—from pain to pleasure. Try it.

You'll find a wonderful lot of information about Baby in the booklet that is wrapped around every bottle of Fletcher's Castoria.

GENUINE CASTORIA ALWAYS:

Bears the Signature of

Chas. H. Fletcher.

THE CENTAUR COMPANY, NEW YORK CITY.

Auctioneering and estate management, chirology, and dental surgery are three professions in which good prospects are said to exist for women.

Corns cripple the feet and make walking a torture, yet sure relief in the shape of Hollister's Corn Remover is within reach of all.

All the wasps of a nest are said to die in the winter, except a few females, which hibernate in a hole or under a stone.

U.S. Factories in Canada

Branch Establishments Represent

Capital of \$400,000,000

According to a recent statement made by the President of the Canadian Manufacturers' Association, six hundred United States factories now have branch establishments in Canada which represents a capital investment of 400,000,000 and provides employment for 87,000 persons. Manufacturing in Canada received a great im-

petus during the war and there are now more than 2,000 varieties of articles manufactured in the Dominion that were imported prior to 1914.

\$2,000 in cash prizes

Many people have discovered that 2 in 1 Shoe Polishes are good for other things than for shining shoes. For example:—

- 2 in 1 BLACK—Good for polishing motor cars; refinishing suit cases; kodaks, black gloves, rubbers, hats, etc.
- 2 in 1 WHITE—cake or liquid—Good for cleaning hats, stains in white skirts, white kid gloves, auto tires, etc.
- 2 in 1 TAN PASTE—Good for polishing furniture, hardwood floors, etc.

For the Best List of New Uses for 2 in 1. We are Awarding Cash Prizes as Follows:

1st award \$500.00—for the most acceptable list	20 Prizes of \$15.00—for the next twenty
2nd " 300.00—for the next best list	50 " 5.00—for the next fifty
3rd " 200.00—for the third best list	50 " 2.00—for the next fifty
10 Prizes of 25.00—for the next ten	100 " 1.00—for the next 100 lists

Try to find new uses for any of the 2 in 1 Shoe Polishes, either black, tan, oxblood, or brown paste, white cake or white liquid, black or tan combination. Write on one side of paper only. List uses according to colors. Awards will be made according to decision of special committee, and payment made on or before October 1st, 1922. All lists submitted to become our property. Address:

Soviet Not Pleased With The Project For Russian Reconstruction

Genoa.—The Soviet plenipotentiaries are not delighted with the project of the powers for the reconstruction of Russia. Such is the brief summary emanating from Soviet sources on which Europe's statesmen have worked so laboriously.

The fact that the document does not mention recognition of the Soviet Government and ignores the suggestion of Governmental loans is said to displease the Communist leaders, who are now conferring in Moscow. Belgium has not signed the memorandum, and was received here that France had determined to stand by Belgium.

The financial code at Genoa has been written, declared Sir Laming Worthington-Evans, chairman of the Financial Commission, and he believed it would prove as important as the historic Justinian civil code, the basis of world jurisprudence.

The essential points are limitation of the issue of paper money, fixing parity with gold, economizing the use of gold and coordination of gold. The United States, said the chairman, with almost half the world's gold, could join in the future study of the problem without involving itself in political difficulties and could help Europe as well as herself.

The financial report, like the memorandum of the powers to the Russians, emphasizes that the disorganized countries should take the form of private, not governmental, credits.

Radio Supplements Telephone

Manitoba Will Enter Radio Broadcasting on Business Basis

Winnipeg.—The Government telephone system will enter the radio broadcasting business on a commercial basis shortly, John Lowry, telephone commissioner, has announced.

Legislative control of operation of amateur wireless and radio machines will be sought at the next sitting of the Legislature, Mr. Lowry said. The telephone department had under consideration placing a wireless link in the long distance telephone system between The Pas and Swan River, but owing to lack of secrecy it will not be feasible to erect such a wireless connecting link until legislative enactments are passed governing the control of amateur wireless plants so that messages passing between Swan River and The Pas could not be picked up. Utmost secrecy is necessary on the line owing to the important mining messages which would pass over the line, Mr. Lowry said.

SUCH PAINS AS THIS WOMAN HAD

Two Months Could Not Turn in Bed. Lydia E. Pinkham's Vegetable Compound Finally Restored Health

Seattle, Washington.—"I had dragging pains first and could not stand on my feet, then I had chills and fever and such pains in my right side and a hard lump there. I could not turn myself in bed and could not sleep. I was this way for over two months, trying everything any one told me, until my sister brought me a bottle of Lydia E. Pinkham's Vegetable Compound. I took it regularly until all the hard pains had left me and I was able to be up and to do my work again. The hard lump left my side and I feel splendid in all ways. I know of many women it has helped." G. Ricardson, 4604 Grand St., Seattle, Washington.

This is another case where Lydia E. Pinkham's Vegetable Compound brought results after trying everything any one told me I had failed.

If you are suffering from pain, nervousness and are always tired; if you are low spirited and good for nothing, take Lydia E. Pinkham's Vegetable Compound. You may not only relieve the present distress, but prevent the development of more serious trouble.

W. N. U. 1419

Valuable Ore Discovered

High Percentage Shown by Samples Taken Near Lethbridge—Gold and platinum bearing ore, showing a high percentage, have been taken from the West Butte Sweet Grass Hills, southeast of this city, and following closely on the essay reports from Montreal, negotiations were opened with old country capital to interest them in developing the property. Three lots of sample sent to Montreal, show: Class 1, gold, \$433 per ton; class 2, gold, \$250 per ton; class 3, gold, \$83 per ton. Platinum averaged one and one-half per cent.

ACIDS IN STOMACH CAUSE INDIGESTION

Create Gas, Sourness and Pain How to Treat

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any drugist a few ounces of Bisulphate of Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bisulphate of Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

Asking Funds For St. Dunstan's Memorial

Viceroy of India Expects to Collect Large Sums

London.—The Viceroy of India the Earl of Reading, has appealed to all the governors of Indian provinces to organize a collection of funds on behalf of St. Dunstan's Institution for the blind in England to help Lady Pearson found a memorial in connection with the great work her late husband, Sir Arthur Pearson, did for the blind people of the British Empire, according to a Reuter despatch from India. The Viceroy expects large sums to be collected in India. He expressed the hope that India will be the last in the movement in which the other parts of the Empire are participating.

Expect Rush of Prospectors

Many Mineral Claims Have Been Registered in Manitoba The Pas, Man.—A great influx of prospectors into Northern Manitoba is looked for during the coming summer and a big advance in the number of mineral claims registered for the present fiscal year is expected. A total of 1,710 claims were recorded at the mines office here during the three years ending March 31, 1922. Of this number 813 were entered during the last fiscal year and 240 during the month of March. The mines office revenue is estimated at about \$50,000 for the three-year period.

To Place Manitoba Loan Winnipeg.—Hon. Edward Brown, Provincial Treasurer, left for New York and other eastern points to investigate the condition of the money markets with the view to placing a \$2,500,000 Manitoba Government loan. The loan will be to cover expenditures voted at last session of the legislature.

Genoa.—David Lloyd George, the British premier, was quoted as saying he knew nothing about the reported oil contracts between the Russian Soviet representatives here and the Shell interests, and if true he would not approve of them.

After Ten Long Years of Suffering

HE SINGS THE PRAISES OF DODD'S KIDNEY PILLS

Jules Labrosse, who had Bright's Disease, Gravel, Dropsy and Diabetes Tells of Benefit he got from Dodd's Kidney Pills. Painesville, Labelle, Co., Que. (Special).—After suffering for ten years from various forms of kidney disease which included Bright's disease, gravel, dropsy and diabetes, Mr. Jules Labrosse, a well known resident here, is now so far recovered that he is singing the praises of Dodd's Kidney Pills.

"Dodd's Kidney Pills have rendered me an immense benefit for which I am happy," Mr. Labrosse says in telling his story. "I suffered for ten years and am now very well. I went down in weight to 125 lbs. Now I weigh 460 lbs."

Dodd's Kidney Pills are purely a kidney remedy. Healthy kidneys strain all the impurities out of the blood. Pure blood carries new strength to all parts of the body.

Ask your doctor if Dodd's Kidney Pills do not make healthy kidneys.

Canadian Representative For Washington Is Now Being Considered

Ottawa.—Appointment of a Canadian representative at Washington is now receiving consideration at the hands of the Dominion Government, Hon. W. L. Mackenzie King, Prime Minister, stated in the House of Commons. The Prime Minister's statement was made in reply to urgent pleas by E. M. MacDonald (Liberal, Pictou, N.S.) that a Canadian minister should be appointed to Washington.

Mr. MacDonald brought up the question on a motion for production of documents "relative to the petition of the Eastern Lathave Transportation Company and others to the

Secretary of State for External Affairs," and replies thereto from the United States Government.

The case at issue, Mr. MacDonald said, was that of a Nova Scotia vessel sunk by an American vessel off Rhode Island. The fault lay with the American vessel, but the Canadian owners, under United States law, could not sue through the courts. They had to act through the secretary for external affairs.

"There should be a more direct method of communication between Canada and the United States than the present one of going through the British embassy at Washington," Mr. MacDonald declared.

The War in China

Heavy Fighting at Close Range Is Reported

Peking.—General Wu Pei Fu, commander of the Chi Li forces, was reported to have arrived near Machang, on the railroad south of Tien Tsin, to take personal command of the operations against the troops of Chang Tso Lin on that section of the battle front.

Late reports are to the effect that Chang Tso Lin is heavily reinforcing his troops in that region with men of all arms, and indications are that Machang soon will be the centre of intense fighting. Artillery duels already have commenced over a wide front. General Wu, if he actually takes command there, will have facing him the 25-year-old son of Chang Tso Lin.

The heavy bombardment that has been in progress at various points has depleted the stores of big gun ammunition and the fighting is now mainly with machine guns and rifles.

At some places there has been a lull in the battle.

In the middle of the front, troops of Chang Tso Lin have recaptured Kuan. Wounded men from that region say the fighting was heavy during the past few days, often at close quarters. The tide of battle was continually changing until the arrival of Chang's reinforcements turned the scales.

Quebec Elections in June

Quebec.—Rumors are current here that the provincial general elections will take place in June.

Fulness After Eating

If you have fulness after meals, a bad taste in your mouth in the morning, far on the tongue, flatulence after meals and no appetite, take Mather's Syrup. It will clean your tongue, renew your appetite, give you relief for food and the power to digest it thoroughly and easily. Sold in 50c. and \$1.00 bottles at drug stores.

Plowing Matches.

Great interest is being taken in the revival of the plowing match as a feature of agricultural society prize lists, and following the special provisions made by the agricultural department for these matches, several agricultural societies in the province are preparing to hold matches in May or June. An address by Prof. J. McGregor Smith, of the college of agriculture, Edmonton, on plowing matches, has been printed by the department in pamphlet form and a number of these have been distributed to secretaries of agricultural societies for distribution among members who may wish to enter such a competition. Points which have been holding plowing matches during the past years are Lacombe, Vermilion and Edgerton. Delia is also planning a match this year, to be held on May 24. For some years the plowing match has been a big attraction at local fairs in Manitoba and Saskatchewan.

The grant now provided by the department of agriculture is 60 per cent of the total money paid out in prizes, with a limit of \$200.

Steer Feeding Contest.

The feeding steers purchased last fall by the University of Alberta were sold the past week on the Edmonton stockyards for very high prices. Some 70 steers were purchased in the first place at an average of \$3.22 and were sold last week at an average of \$6.72 averaging in weight about 1240 lbs. Fifty-six of them sold at 7c, six at 6½c, and three at 5c. The marketing costs totaled 23c cwt. The overhead cost of feeding was not more than \$100 for the lot. Gains varied from \$17.50 per head down to \$2.50 per head on the poorer stuff.

The Professor Is Right.

Prof. Swanson, of the Saskatchewan University, doesn't agree with H. W. Wood's declaration at Ottawa that the Western farmer was bankrupt, says the Lethbridge Herald. The Professor is quite right in maintaining that no large class of people can be declared bankrupt until they are bankrupt in coinage, determination, and will power. Had a crop failure been sufficient to bankrupt our Southern Alberta farmers they would have been bankrupt in 1914. Courage and determination kept them going and the 1915 bumper crop followed. There have been some real bad years since, but the courage has not disappeared. Another couple of good crop years and the farmers will be even more determined to stay on the land in the South. Many farmers are bankrupt financially; but as long as they possess the qualities mentioned above, they will survive.

Whisker Creek Jots.

Some people may think that Spring has come—but there were still a great many of the red flannel ones out on the lines last Monday.

Eza Nulther's hen started to lay on Saturday, so he has been able to send in a case of these fresh water-glass eggs to market this week.

*Rover, the collie dog belonging to Maken the Butcher, was killed by being kicked on the head by Slim Nutt's saddle horse last week. Mr Maken's ad. in the local paper this week announces a special sale of fresh sausage.

Position Wanted by

Respectable young widow, with 2 small children, desires position as housekeeper. Apply Box 45.

Notes from Spruce Grove.

The farmers of this district have finished wheat seeding operations.

Mrs. H. Judd, of Hayer, is visiting with her sister, Mrs. Pryce Jones.

The Councillors of Spruce Grove M. D. held their regular meeting on Thursday last, in the Bank of Commerce building, which has been leased as an office and Council Chamber.

Mr and Mrs. M. McLeod have moved into the B. W. Atkinson house.

Herman Loeblich, 15 years of age, was taken suddenly ill on Saturday and taken in to the City, where he was operated on the next day for appendicitis. He is reported doing well.

Summer School for Teachers.

Announcement has been made of the dates of the summer schools for Teachers at the University at Edmonton, which will be from July 3rd, to August 5th. Lectures will be based chiefly on the new curriculum for the elementary schools which goes into effect on September 1st, next. This will afford teachers an excellent opportunity of becoming acquainted with the new curriculum. Classes will be organized in English, Citizenship, Industrial Arts, Music, Writing, Elementary Science, Physical Education, Agriculture and Household Economics.

The Women's Institute

Wish to announce that their piano, which is in Mr. Ducholke's Hall, can be rented by anyone, at any time his hall is rented, by applying to Mr. Ducholke. Rental terms are \$5.00 for dances; \$5.00 for concert and dance; and \$3 for concert only.

The W. I. do not rent or loan dishes.

Accident at the Crossing.

The peril of the level crossing in town was exemplified again on Saturday night. A freight train on the Grand Trunk had just crossed Main street about 8 o'clock, when a motor truck driven by Mr. Wong Yen crossed behind the caboose in a hurry and ran into a horse which Mr. Gus Mintz was trailing behind the team and wagon he was driving. The truck struck the animal on the left hind leg, breaking it. The horse had to be shot.

Mr. Yen but recently started farming on the E. W. Bell place, north of town, and intended raising chickens and rhubarb for the Edmonton market.

Eggs For Hatching.

J. MILLER.

Stony Plain Town Council.

The Town Council held its regular monthly meeting on Thursday evening, May 4th; present, The Mayor, Councilors Hardwick, Armbruster, Oppertshauer.

Minutes of the last regular meeting, and also of the special meeting, were read and adopted.

The question of the new bridge on the Meridian road was up, but after a short discussion the matter was laid over.

The committee appointed to inquire into the renting of the 80-acre plot north of the town was not ready to report, and this also was laid over.

All the accounts brought up were ordered paid, except one, which was referred back to the Board of Health.

The report of the Parks Board was read. The Board asked that its appropriation for this season be the sum of \$175. A resolution carried that this be granted. The Board will be given jurisdiction over the town's 80-acre plot, if the rental proposition for this received at a previous meeting is not granted.

The report from the Prov-

incial Fire Commissioner was read, and the recommendations for the elimination of the fire hazards, and better protection, were noted.

A letter was received from the C. N. Townsite Co., asking that a new agreement be signed regarding the transfer of the 4-acre plot near the Fair Grounds. The request was acceded to, and this document will be signed on behalf of the Corporation.

The Secretary was instructed to forward a letter to the owner of the team which damaged the light pole and lamp on Main street on May 2d, asking for damages to the amount of \$50.

The matter of the serious damage being done to property in town by the use of catapults in the hands of boys was brought up, and it was decided to write the Principal at the local school regarding this.

Bylaw No. 85, on Meat Inspection, was read a third time and finally carried. Following this, E. R. Maynard, V.S., was appointed Meat Inspector.

A motion carried that Janitor Johnston's summer salary be the same as 1921, after which Council adjourned.

Stony Plain and District

Sunday next, May 14, is Mother's Day.

Meridian Lodge held a session Tuesday night.

Mr Freifeld is building an extension to his Departmental Store along the Main street frontage.

Miss Robertson's room at the local School won the Strathcona prize of \$7.25.

Mr John Ducholke was confined to his house the past week, thru illness.

The Jolly Bachelors will hold another of their popular dances in Ducholke's Hall on the evening of Victoria Day, Wed., May 24.

Mr and Mrs Wm Sheppard of Edmonton, were visitors on Sunday with Mr and Mrs W Gilbert.

There was no bus service to the City on Tuesday morning. The two local representatives on the Prize Committee of the Fairs Association failed to get in, to attend its meeting on that day.

A freight train on the Grand Trunk ran into a bunch of horses one mile west of town last week, and killed a registered Clyde stud colt and a yearling Percheron filly, the property of Mr William Gilbert.

Wolf Bros. shipped a fine bunch of 4 year-old steers to Edmonton Stock Yard on Friday last.

Mr J R Good, road machinery man, Calgary, was in town on Friday.

Inga M. D. held a meeting in Stony Plain on Friday.

First class timothy seed, at Kelly's.

Victoria Day at Comet, this year, promises to be another record breaker. The 1922 committee had a meeting last week, when it was resolved to make this annual affair a memorable one. An effort is being made to have Little Eva, the Trained Elephant on the picnic grounds that day.

A circular has been issued by the Provincial Publicity Commissioner, setting forth an explanation of the new system of cream grading and the elimination of the cream buying stations, and the objects of this legislation.

The New Garage has had an expert repairer out from Edmonton fixing up the tires left there for repairs. Will the owners of these tires kindly call at once and get their goods.

Registered Purebred Hereford Bull for sale. Apply John H Foster, Carvel, Alta.

A Kaus has opened a General Blacksmith Shop at Bright Bank, and is prepared to execute repairs of all kinds to farm machinery.
